

March 17, 2020

Dear Valued Customer:

The threat of COVID-19 continues to remain a concern with government agencies, businesses and individuals. In response to these concerns, Myers Industries, Inc. (Akro-Mils & Jamco Products) has developed and implemented a "Pandemic Preparedness Plan" at our locations.

This plan is designed to provide our locations with guidelines and preventive measures to address and respond to impacts from a pandemic, including disruptions from increased absenteeism.

As an organization, we continue to monitor the COVID-19, and to take appropriate steps to minimize the threat to our team members and our business.

In the meantime, our supply chain remains robust and production facilities continue to ship product. If something were to change, we will advise.

If you have any questions regarding our pandemic preparedness activities, please contact me at the telephone number below.

Best regards,
