

Made to Move While Keeping Heavy Loads in Place

Securely and safely move heavy loads throughout your facility. Dependable construction meets your in-house product transportation needs while reducing inventory damage and extra work.

Move it with VERSA/Deck

Features:

- Underdeck steel reinforcement and bolt-on casters provide long-term durability.
- Weight capacity of 2,000 lbs.
- Four tie-down slots molded into deck and non-skid surfaces keep items secure during transport.
- Select between open swayback or crossbar handle styles to find the most ergonomic fit for your work environment.
- Reinforced handle pockets welded to underdeck ensure easy replacements.

Move it.

Store it.

Organize it.

VERSA/Deck Platform Truck

Choose the Right Handle for Your Transport Needs

The VERSA/Deck™ offers various handle options, allowing you to customize it to suit your specific work type and ergonomic preferences.
